

**MASE is launching a national campaign to raise awareness
about radiation exposure health issues
and call on YOU to join us.**

Dear Colleagues:

Will you join with the Multicultural Alliance for a Safe Environment (MASE) as we start a campaign for justice and compensation for the uranium miners at the front end of the nuclear fuel chain? We are advocating to amend the Radiation Exposure Compensation Act (RECA) to include ALL uranium workers and additional downwind communities that were harmed by the U.S. above-ground nuclear weapons explosion tests. www.swuraniumimpacts.org

[What You Can Do](#)

Support

We are asking **Organizations** to join our campaign. By joining, you show your support and help get the word out to your constituency.

Send an email message to sgordon@swuraniumimpacts.org with:

- Your Name & Title (you should be authorized to list your organization)
- Organization Name
- Organization Address
- Organization Phone
- Organization Website

Organization contact and links will be posted and updated at www.swuraniumimpacts.org

Share

We have an [online petition](#) for individuals to send messages to their Congressional Delegation asking for the support to move the RECA Amendments forward. Please post this on your website and send out to your list serves.

Send

We have pre-addressed postcards to send to Senator Charles Grassley, chair of the Judiciary Committee. The RECA Amendments are assigned to his committee and we are urging him to hold a hearing. Download postcard pdf. We encourage printing on bright yellow card stock.
